

Tafsir Chowdhury

Full Stack Engineer | TypeScript, Node.js & Applied AI

✉ tafsircy@gmail.com | ☎ +8801983510532 | 🌐 tafsirc | 🔄 tafsirc | Upwork

SUMMARY

Full-stack engineer building web applications since 2022 with TypeScript, React, Next.js, and Node.js. Owns work across frontend interfaces, backend APIs, databases, integrations, and deployment. Experience includes AI-assisted research tools, durable background processing, sports media automation, business operations platforms, and examination systems.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, SQL, HTML, CSS

Frontend: React, Next.js, TanStack Query, Zustand, Tailwind CSS, ShadCN UI

Backend & Data: Node.js, Express, Hono, PostgreSQL, MongoDB, SQLite, Drizzle, Prisma, Redis, BullMQ, Inngest

AI & Integrations: OpenAI, Claude, Gemini, Vercel AI SDK, RAG, Tool Calling, Stripe, OAuth2, Better Auth

Delivery: Docker, AWS EC2/ECS, Railway, Vercel, GitHub Actions, Git, Jest, React Testing Library

PROFESSIONAL EXPERIENCE

Standard Insights

Oct 2024 – Present

Full Stack AI Engineer

Remote | New York, USA

- Built survey and report interfaces in Next.js/React, Node.js APIs, and database workflows for a consumer research platform; owned features through deployment.
- Replaced one-shot AI report requests with 32 durable Inngest functions, adding retries, concurrency controls, and failure handling. Built a structured-output Survey Builder Agent with Gemini and Zod.
- Developed distributed workers across 10+ BullMQ/Redis queue types, including idempotent Excel/CSV ingestion with S3; integrated JWT/RBAC and Google OAuth2 for Sheets/Slack.
- Containerized three services with Docker and GitHub Actions CI/CD; deployed on AWS ECS and Railway and supported production troubleshooting.

HJ Animation Shop LTD

Jul 2023 – Sep 2024

Full-Stack Developer

Remote | Loughton, UK

- Built Aximus, an AI customer support platform with Next.js, TypeScript, Vercel AI SDK, tool calling, and keyword-based retrieval; implemented Meta webhook validation and idempotent processing.
- Developed multi-tenant SaaS applications with Next.js and Drizzle, including commission calculations, examination/video-grading workflows, and the Parocia headless CMS.
- Implemented authentication, RBAC, OTP 2FA, payment integrations, and PDF certificates, with responsive interfaces and reusable components.

Legal Fist

Jun 2022 – Jun 2023

Full Stack Developer

Remote

- Built an online examination application with timed exams, automatic scoring, question management, exam-history reports, and student/admin dashboards using Next.js, React, and Tailwind CSS.
- Deployed the application on DigitalOcean and resolved issues across the frontend, backend, and server.

SELECTED PROJECTS

Visual Source | *Soccer operations & media automation* Live

- Built a multi-tenant club dashboard for live event tracking, branded match graphics, and scheduled social publishing. Implemented Fabric.js/node-canvas/Sharp rendering, Cloudflare R2 storage, and Sportmonks synchronization with PostgreSQL advisory locks.
- Integrated social publishing workflows and deployed Next.js, PostgreSQL, and Caddy through Docker Compose.

KDF Corporation ERP | *Operations & accounting* Live

- Developed React interfaces, Hono/TypeScript APIs, and a Turso/SQLite database connecting projects, procurement, expenses, staff advances, and payroll with double-entry accounting.
- Implemented approvals, audit trails, tender securities, performance guarantees, private documents, and Excel/printable reports.

DeLegends Barbershop | *Booking & staff operations* Live

- Built a Next.js customer website, React admin dashboard, and TypeScript/PostgreSQL backend for appointment booking, multi-location calendars, availability, and receptionist workflows.
- Added role-based access, client history, appointment checkout, payroll reports, gift cards, and loyalty rewards.

OPEN-SOURCE CONTRIBUTIONS

Formbricks: Four merged pull requests for crash prevention, browser compatibility, language names, and documentation (#7268, #7325, #7349, #7254). **Submitted:** Dub mobile layout fix and Better T Stack Convex/Better Auth configuration fix.

EDUCATION

University of the People
Bachelor of Science in Computer Science

- Graduated with CGPA 3.67

2021 – 2024
DEAC | California, USA

CERTIFICATIONS

IBM: Full Stack Software Developer Specialization
Meta: Front-End Developer Specialization | Back-End Developer Specialization
Amazon Web Services: AWS Fundamentals Specialization
